

**SMART
USB FLASH DRIVE**

Life is an open road.
Enjoy the drive.

Introducing the U3 DataTraveler from Kingston.

Get the freedom to move between PCs with Kingston's U3™ DataTraveler® smart drive. It runs U3 smart versions of software programs you can download at U3.com from such categories as communication, productivity, games, photo, file synchronization and security. Create your own customized U3 workspace to work with your programs and files on a device small enough to fit on your keychain.

Kingston's U3 DataTraveler is designed to ensure no personal data is left behind, so you can feel safe even when using it on public computers. Every U3 DataTraveler comes with a U3 Launchpad* that serves as a Start Menu and operates in six languages — English, Spanish, French, German, Italian and Japanese. And every drive is backed by legendary Kingston reliability, 24/7 tech support and a five-year warranty.

Visit kingston.com/U3 today — and get in the fast lane.
